

CATALONIA KITCHEN

Slurp Tours is delighted to present its superb Catalonia Kitchen Itinerary. With its unique language, culture, architecture, landscape, cuisine and capital city of Barcelona, there's too much here, even for a month.

So, here's a manageable, bite-size trip for **businesses** looking for their **next off-site event** or for those with limited time. You can extend your stay by adding in:

- **Montserrat**, it's mountain hikes, cable car and monastery
- A trip to the **Pyrenees** (2 hours from Barcelona) including a stunning vineyard and restaurant near the mountains and coast
- A City Tour of **Barcelona**
- The stunning town of **Sitges** with its culture, architecture, beaches and boat trips

DAY 1

- Arrive early afternoon and transfer to a small, friendly, family winery only 30 mins from Barcelona:

This boutique winery is in a 15th century farmhouse among vineyards, overlooking the village of Alella and Mediterranean Sea. Enjoy the warmest of welcomes. After a short tour of the vineyards and winery, sample their wines whilst cooking your own paella lunch in expert hands. This is joyous.

- Transfer to hotel for check-in and to refresh before heading out into beautiful Barcelona's night-life.

DAY 2

- Today has many great options. Take a 2-hour trip towards the **Pyrenees** and immerse yourself in an idyllic landscape, surrounded by vineyards, olive trees and hundred-year-old oaks. Enjoy a spectacular lunch in a stunning and tranquil environment, which has views of the mountains and sits by the coast.
- For groups wanting meeting/event facilities (or simply less travelling), all in an equally beautiful environment, we recommend the incredible **Abadal Winery**:

Abadal is located in the heart of the Bages region, surrounded by a unique landscape of vineyards and forest. It can cater for any kind of visit you require with an on-site restaurant, wine bar, terraces and meeting facilities. It even has music festivals! Picapoll and Abadal Mandó are two unique, 100% local grape varietals that Abadal preserves and produces.

DAY 3

- If you would like to extend your stay, you may want a **City Tour of Barcelona** or a **guided hike in the Montserrat Mountain Range**, visiting the incredible monastery, perched on the side of the mountain. If you return home today, choose a later flight and head to the beautiful, coastal town of **Sitges** for lunch.
- After lunch, we will transfer you to the airport.

Please [Contact Us](#) if you would like to design your own itinerary and inclusions.
